The year six children have been finding out about the effects of plastic pollution in our oceans. Our link school in Cape Town, South Africa have been doing similar work and the classes have been comparing what they have found out. During the half term holiday Mrs Holder visited Steenberg Primary in Cape Town and delivered the year six letters to the class, as well as finding out about education in South Africa. This trip was funded by the British Council to develop international projects between schools. The year six children have been very excited to receive their post from their partner class and we have found out a lot about children's lives in another part of the world.
